

Toronto Locksmith Urges Homeowners to Check their Side and Back Door Locks this Holiday Season

High-Security Locks Should Be Installed on All Exterior Doors to Keep Thieves at Bay

TORONTO, ONTARIO, CANADA, December 7, 2016 /EINPresswire.com/ -- With the holiday season upon us, Locksmith Care is urging homeowners to check the locks on both their side and their back doors. This is the time of the year when expensive gifts may be lying around the home and when more physical cash may be available for thieves.

It's also the time of year when homeowners head out to shop and to attend holiday get-togethers in the evenings. Many people also plan a trip during this festive time of year to meet up with friends and family. Leaving the home without proper security measures in place is just asking for trouble - especially during the holiday season.

A break-in can ruin the festive joy of the season and for that reason it's recommended that homeowners check the locks on all of their exterior doors to make sure that they provide maximum security. A simple lock built into a doorknob just isn't enough these days keep criminals out of a home. "Take a look at the locks on all of your doors and windows to make sure that they are high quality, security locks that will stop a thief in his tracks," says a [Locksmith Toronto](#) representative. "Lower quality, older lock styles can be picked by thieves or otherwise destroyed to gain entry into the home." "High security locks on your front door really don't mean a thing if your back and side doors are vulnerable. Many thieves aren't brazen enough to enter a home by the front door and choose to break in using a side or a back door. While having high-quality security locks on your front door is a good start, you simply can't ignore the locks on the other exterior doors."

This year, it's time to take control over your home's security features. It may be the best present that you can give yourself and your family during this holiday season.
