

# Telecom Market Business Outlook & Procurement Research Report November 2016-April 2017

OrbisResearch.com has published "Telecom Industry Business Outlook and Procurement Report November 2016-April 2017" to its market research reports store.

DALLAS, TEXAS, UNITED STATES, December 8, 2016 /EINPresswire.com/ -- Mergers and

“

On average, the global telecom industry's procurement expenditure is projected to increase by 10.8% over the next six months.”

*The report provides information by region and company type.*

acquisitions are expected to increase within the telecom industry over the next six months (November 2016-April 2017) as a result of rising competition within the telecom industry, and growing expectations from customers regarding data and services to be delivered on-demand. Even though cost containment, rising competition, and market uncertainty have been highlighted as major business concerns for the global telecom industry over the next six months, respondents are willing to increase their focus towards expansion in current markets and development of new products. Furthermore, developing economies such as India, China, and Brazil are projected to offer significant growth opportunities for the global telecom industry due to expansion in mobile and smart

device utilization and connectivity, significant growth in subscriber base of mobile internet data, and rise in m-commerce. On average, the global telecom industry's procurement expenditure is projected to increase by 10.8% over the next six months.
