

Airport Passenger Screening Systems 2016 Global Market Expected to Grow at CAGR 4.53% and Forecast to 2020

PUNE, INDIA, December 8, 2016
/EINPresswire.com/ --

WiseGuyReports.Com Publish a New Market Research Report On – “Airport Passenger Screening Systems 2016 Global Market Expected to Grow at CAGR 4.53% and Forecast to 2020”.

The analysts forecast the [global airport passenger screening systems market](#) to grow at a CAGR of 4.53% during the period 2017-2021.

Airport passenger screening systems are being used at the airport security checkpoints since decades. Earlier, most of the airport passenger screening process relied on hand-held metal detectors or walk-through metal detector for passengers and X-ray systems for carry-on items. However, the evolving security threats and the inability of metal detectors to detect non-metallic objects and explosives are nudging many airports to implement advanced imaging technologies and procedures to screen passengers for explosives and non-metallic weapons.

Covered in this report

The report covers the present scenario and the growth prospects of the global airport passenger screening systems market for 2017-2021. To calculate the market size, the report considers the revenue generated from the retail sales of haircare products to individual consumers and salons.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Airport Passenger Screening Systems Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- CEIA
- L-3 Communications
- Nuctech
- RapiScan Systems
- SDI

Other prominent vendors

- American Science and Engineering
- Analogic
- AUTOCLEAR
- Optosecurity

Market driver

- Increased focus on the capacity expansion of existing airports.
- For a full, detailed list, view our report

Complete Report Details @ <https://www.wiseguyreports.com/reports/809526-global-airport-passenger-screening-systems-market-2017-2021>

Market challenge

- Increased focus on the capacity expansion of existing airports.
- For a full, detailed list, view our report

Market trend

- Introduction of controlled cognitive engagement (CCE) approach.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Key buying criteria

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by technology

- Global airport passenger screening systems market segmentation
- Global airport metal and explosive detection systems market
- Global airport advanced imaging systems market

PART 07: Geographical segmentation

- Geographical segmentation of global airport passenger screening systems
- Airport passenger screening systems market in APAC
- Airport passenger screening systems market in EMEA
- Airport passenger screening systems market in Americas

PART 08: Market drivers

- Increased focus on the capacity expansion of existing airports
- Growing emphasis on reducing passenger wait time
- Increasing security threats

PART 09: Impact of drivers

PART 10: Market challenges

- Concern over passengers' privacy and health
- Complex process of passenger screening with existing systems
- Vulnerability to hacking
- Inability of existing screening systems in detecting all possible threats
