

Pressure Pumping Market Insights, Competitor Analysis, Forthcoming Developments, and Business Opportunities to 2027

Global Pressure Pumping Market Information Report by Well Type (Land, Offshore), by Services (cementing, hydraulics, fracturing) and by Region - Forecast 2027

PUNE, MAHARASHTRA, INDIA,
December 8, 2016 /EINPresswire.com/ --
Intended Audience

- o Pressure pumping Contractors
- o Pressure pumping Suppliers
- o Research and Development (R&D) Companies

Market Scenario

Significant depletion of matured oil fields has forced Oil companies to shift their focus towards drilling activities. Pressure pumping being an essential part of pumping oil from matured oil fields and increased drilling activities to pump oil from unconventional onshore fields is leading to a significant increase in the demand in the [Pressure Pumping Market](#). With the further depletion of oil fields the market for pressure pumping is going to witness further growth due to increasing complexity of pumping oil from shallow oil fields.

Segments

The Pressure pumping market has been segmented on the basis of Well Type as Land and Offshore. On the basis of Services the market has been segmented as cementing, hydraulics and fracturing.

Key Player

- Weatherford International
- China Oilfield Services Ltd.
- Halliburton Company
- Saipem S.p.A.
- Schlumberger Limited
- Baker Hughes
- Superior Energy Services

The reports also cover country level analysis:

- o Americas (North & Latin)
- o Europe
- o Asia – Pacific

“ We enable our customers to
unravel the complexity.”

Market Research Future

o Middle East & Africa

Taste the market data and market information presented through more than 70 market data tables and figures spread in 120 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Pressure Pumping Market Research Report - Forecast to 2027](#)"

Study Objectives of Pressure Pumping

- To provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the global Pressure Pumping market
- To provide insights about factors affecting the market growth
- To Analyze the Pressure Pumping market based on various factors- price analysis, supply chain analysis, Porters five force analysis.
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, and new product developments in the global Pressure Pumping market
- To provide historical and forecast revenue of the market segments and sub-segments with respect to six main geographies and their countries- North America, Europe, Asia-Pacific, South America, Middle East, and Africa
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by Well Type, Services, and by region as well as its sub segments
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market

Regional Analysis of Pressure Pumping Market:

North America is the leading region in this market mainly due to large number of major contractors and Companies in this region. North America is poised to growth at a significant pace with the existing competition in the market and heavy investments in R&D for technological development.
