WiseGuyReports.Com Publish a New Market Research Report On – "Applicant Tracking Systems in US 2016 Market Expected to Grow at CAGR 7.58% and Forecast to 2020".

The analysts forecast the ATS market in the US to grow at a CAGR of 7.58% during the period 2016-2020.
An ATS is an application that manages the recruitment needs of an organization. It can be compared to customer relationship management systems, but it is specifically designed for recruitment tracking purposes. ATS collects and stores resumes in a database and gives recruiters an online view of job seekers after scanning and indexing those resumes. Most organizations use some form of ATS to handle job applications and manage their large volume of resume data. The data is either collected from internal applications via ATS or is extracted from social networking websites such as LinkedIn, Facebook, Twitter, and Google+. ATS solutions also enhance candidate experience by providing easy access, transparency, and step-by-step processes to apply for a suitable job.
