

Green Building Materials Market Projected to Reach USD 245 Billion by 2022

Global Green Building Materials Market by Application (Residential, Commercial), End-use (Exterior Siding, Interior Finishing) and Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, December 9, 2016 /EINPresswire.com/ -- Market Research Future published a Half

Cooked Research Report on Green Building Materials Market that contains the information from 2014 to 2022. The [Global Green Building Materials Market](#) is expected to grow over the CAGR of around 17% during the period 2016 to 2022

“ We enable our customers to unravel the complexity.”

Market Research Future

The key players in Market are Alumasc Group plc, Bauder Ltd., Wienerberger AG, Binderholz GmbH, Homasote Company, CertainTeed Corporation, LG Hausys Ltd., RedBuilt LLC, PPG Industries, Inc., etc.”

Market Research Future

Market Highlights

Green Buildings are the structures that utilize the resource efficient and environment friendly processes throughout the life cycle of the building. The market is driven by the increasing consumer awareness regarding energy efficiency and government supportive policies globally drive the market. Furthermore, the low maintenance cost, low operating cost and low water requirements the fueled the demand of the market. Health care industry by application contributes highest to the overall growth of the market. On the basis of region, North-America is the largest market both by value and volume. The global green building materials market size was

valued at around USD 158 Billion in 2015 and is expected to cross USD 245 Billion at CAGR of 17% by 2022.

Key Players

The key players of global Green Building Materials Market report include-

- Alumasc Group plc
- Bauder Ltd.
- Wienerberger AG
- Binderholz GmbH
- Homasote Company
- CertainTeed Corporation
- LG Hausys Ltd.
- RedBuilt LLC
- PPG Industries, Inc.
- E. I. du Pont de Nemours and Company

- Forbo International SA
- Kingspan Limited
- Lafarge Company
- BASF SE
- Owens Corning

Scope of the Report

This study provides an overview of the global green building materials market, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific, and Rest of the World. The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global green building materials packaging market as application and end-use.

• By Application

- o Residential
- o Infrastructure
- o Commercial

• By End-use

- o Insulation
- o Framing
- o Roofing
- o Interior finishing
- o Exterior siding
- o Others

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
