Publish a New Market Research Report On –
[“Global Distributed Performance and Availability Management Software Market 2016-2020”](#).

The analysts forecast the global distributed performance and availability management software market to grow at a CAGR of 13.06% during the period 2016-2020.

APM software helps organizations monitor, detect, analyze, manage, report, and resolve performance issues of applications. The software ensures that applications perform well and meet user expectations. APM software is also known as distributed performance and availability management software. It provides full visibility into the heterogeneous database of an organization such as structured query language server, My SQL, and MS Access and helps clarify the nature of the heterogeneous distributed database. It also helps organizations demonstrate the performance of business processes and web transactions across multiple services and devices with improved business transaction management.

Covered in this report

The report covers the present scenario and the growth prospects of the global distributed performance and availability management software market for 2016-2020. To calculate the market size, the report considers the revenue generated from the sales of distributed performance and availability management software used for monitoring and management of web application performance, database monitoring, server performance, mobile application performance, and mainframe application performance.

The market is divided into the following segments based on geography:

- APAC
- Europe

- South America
- MEA
- North America

The report, Global Distributed Performance and Availability Management Software 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- CA Technologies
- Compuware (Dynatrace)
- HP
- IBM

Other prominent vendors

- AppDynamics
- BMC Software
- Dell
- ManageEngine
- Microsoft
- Nastel Technologies
- New Relic
- Oracle
- Riverbed
- SecurActive
- SmartBear Software
- SolarWinds

Market driver

- Rising demand for cloud-based APM software
- For a full, detailed list, view our report

Complete Report Details @ <https://www.wiseguyreports.com/reports/417286-global-distributed-performance-and-availability-management-software>

Market challenge

- Complexity of applications
- For a full, detailed list, view our report

Market trend

- Transition from APM to user-experience management software
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

- Market insights

PART 02: Scope of the report

- Market overview

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market description

- Common features of distributed performance and availability management software in the market
- Advantages of distributed performance and availability management software

PART 06: Market landscape

- Market overview

PART 07: Life cycle analysis

- Market assumptions
- Global distributed performance and availability management software market

PART 08: Market segmentation by deployment

- Global distributed performance and availability management software market segmentation by deployment
- Advantages and disadvantages of on-premises and cloud-based deployment models

PART 09: Geographical segmentation

- Global distributed performance and availability management software market segmentation by geography
- Global distributed performance and availability management software market segmentation by geography (revenue)

PART 10: Market attractiveness by geography
