PUNE, INDIA, December 13, 2016 /EINPresswire.com/ --

Summary

Global [Beverage Packaging](#) Market is estimated at \$155.3 billion in 2015 and is poised to reach \$218.6 billion by 2022, growing at a compound annual growth rate (CAGR) of 5.1% during the forecast period. Rising beverage consumption in emerging economies and innovative packaging are the key drivers of the market. Stringent environmental regulations and sluggish demand for beverages are the factors restraining the market growth. The opportunity lies in elevated growth of PET as packaging raw material. Feel and dimension of packaging products and rising trend towards aseptic packaging are also fueling the market growth. Asia Pacific has emerged as a beverage packaging centre due to low cost availability of raw materials.
