

# Global Aerospace Floor Panel Market Expected to Grow at 6.4% CAGR During 2016 to 2021, Says Stratview Research

*An Extensive Market Research Report from Stratview Research Includes Trends, Forecasts, Competitive Analysis and Strategic Growth Opportunities.*

DETROIT, MI, USA, December 13, 2016 /EINPresswire.com/ -- Stratview

Research announces the addition of a new market research report on [Global Aerospace Floor Panel Market](#) by Aircraft Type (Narrow Body, Wide Body, Very Large Aircraft, Regional Aircraft, and General Aviation), by Material Type (Composites and Metal), by Core Materials Type (Nomex Honeycomb, Aluminum Honeycomb, and Others), by End-Use Type (OEM and Aftermarket), and by Region (North America, Europe, Asia-Pacific, and Rest of the World),

Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016 – 2021

This market report from Stratview Research studies the aerospace floor panel market over the period 2010 to 2021. The research report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

## The Global Aerospace Floor Panel Market: Highlights

Stratview Research foresees a robust growth of 6.4% CAGR in the aerospace floor panel market over the next five years (2016 – 2021), which offers an opportunity to the aerospace industry players to align themselves with the market growth.

There are a host of factors bolstering the growth of aerospace floor panel market. The author of the report stated that increasing deliveries of new commercial and regional aircraft, advancement in the technology, shift from aluminum to composite materials in the next generation aircraft, and rising global aircraft fleet size.

As per the report, wide body aircraft is likely to witness the fastest growth during the same period, driven by an increasing demand of wide body aircraft, such B787 and A350XWB in developing economies, such as China and India.

In terms of region, Asia-Pacific is expected to experience the fastest growth for the same period. The

highest commercial aircraft fleet size, gradual shift of manufacturing / assembly plants of OEMs, and upcoming indigenous commercial and regional aircraft, such as Comac C919, ARJ21, and MRJ, fueled by increasing passenger traffic are likely to drive the Asia-Pacific region in the coming years.

Some of the major companies in the aerospace floor panel manufacturing are Hexcel Corporation, M.C. Gill Corporation, B E Aerospace, Zodiac Aerospace, EFW, and Euro-Composites.

New product development, adoption of advanced lightweight materials, and collaboration with OEMs are some of the key strategies adopted by companies to gain an edge over other competitors.

## Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.
