

ECommPay introduces additional measures to counteract fraud

LONDON, UNITED KINGDOM, December 13, 2016 /EINPresswire.com/ -- Staying ahead of the curve, Mastercard Principal Member [ECommPay](#) closely monitors the payments industry for the latest risk management innovations to bring clients the most effective anti-fraud solutions.

Dedicated to protecting client business from the losses associated with fraudulent transactions and data theft, payment services provider ECommPay keeps abreast of the latest in payment security technologies.

The proprietary risk management system [FraudStop](#) is enabled with individually customizable filters to ensure each client receives full security coverage based on relevant factors. Additional security features, such as [3D Secure](#) and tokenization, ensure a solid defense against fraudulent activity.

Working closely with merchants, ECommPay conducts a thorough analysis of client industries and business specifications, including a detailed examination of the KYC (Know Your Customer) policy, to effectively defend client revenues.

Combining automated fraud monitoring techniques with manual responsiveness, ECommPay guarantees comprehensive coverage. To supplement its effective antifraud strategy, the company has recently announced a collaborative effort with Mastercard Dashboard, which will further increase the visibility of fraudulent activity and provide detailed overviews of the payment process.

Mastercard Dashboard's innovative anti-fraud features allow ECommPay to track and neutralize fraudulent activity quickly and more effectively, thereby guaranteeing a higher level of protection for both existing and prospective clients.
