

E-bike market Size, type, Frame Material, Segmentation, Share, Consumer Group, Regional Analysis Forecast to 2022

Global E-Bike Market Information- by type (pedal assist, throttle control), by battery (lithium ion, sealed lead-acid), by frame material - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, December 13, 2016 /EINPresswire.com/ -- The global market for E-Bike is expected to increase through 2022, according to a Market Research Future report.

Here's what you need to know:

- 1) Global [e-bike market](#) has been estimated to grow over 4% post 2022.
- 2) The study includes detailed market analysis of e-bike market encompassing its macro and micro-markets
- 3) It covers market segmentation by type, battery, frame material, consumer group and by design
- 4) It helps in identifying region-wise major suppliers and understand consumption patterns
- 5) The report will provide useful and premium insights that will support in investments for e-bike and allied companies providing details on the fast growing segments and regions
- 6) In addition, it will provide key findings that will help the companies to improve profitability by using supply chain strategies, cost effectiveness of various products mentioned in the report
- 7) The data used in the report is primarily based on primary interviews with the major producing companies and industry experts and also supported by authentic industry data from secondary sources

The Major Key Players are Derby Cycle AG, Accell Group, Easy Motion electric bikes, Jiangsu xinri e-vehicle co. ltd, Yadea technology group co. ltd, Bosch, Stromer, BTS machinery Co., Ltd ”

Major Key Players

- Derby Cycle AG (Germany)
- Panasonic (Japan)
- Accell Group (Netherlands)
- Easy Motion electric bikes (U.S)
- Pedego (U.S)
- Jiangsu xinri e-vehicle co. ltd (China)
- Yadea technology group co. ltd (China)
- Bosch (Germany)
- Stromer (Switzerland)
- BTS machinery Co., Ltd (China)

Market Highlights

The demand for e-bike is increasing because they are much more affordable compare to other electrical vehicles and easier to park due to their small size. Growing demand of low cost transportation in developing countries is driving the growth of e-bike market. E-bikes don't require license and additional infrastructure to operate which influencing sales of e-bikes among various age groups. The sales of e-bikes in urban area is rising

Global e-bikes production has increased with remarkable support from government authorities and manufacturers. Environmental friendliness with zero emission has encouraged buying of e-bikes among the consumers. The e-bike market is also supported with other factors like improved battery technology backed by enhanced performance. Increase in population density and traffic problems is also driving the growth of e- bike market.

Taste the market data and market information presented through more than 30 market data tables and figures spread over 100 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on [“Global E-Bike Market Research Report- Forecast to 2022”](#)

Study Objectives of E-Bike Market

- Detailed analysis of segments and sub-segments of e-bike
- To estimate market size by type, battery, frame material, consumer group and by design
- Market dynamics including trend and factor analysis for supply and demand of e-bike
- Region level market analysis and market projections for North America, Europe, Asia, and Rest of the World (ROW)
- Competition mapping and positioning of major market players, evaluation of key company strategies
- Company profiling of major players in the market
- Value chain analysis and supply chain analysis
- Analysis of historical market trends, and technologies, and current government regulatory requirements

Market Research Analysis:

- 1) Secondary data reveals that the e-bike market is projected to grow more than 4% annually post the year 2022
- 2) The demand for affordable e-bikes which are foldable and light in weight is increasing in all over the world
