[Ophthalmic Diagnostic Equipment - Medical Devices Pipeline Assessment, 2016](#)

The report provides comprehensive information on the pipeline products with comparative analysis of the products at various stages of development. The report reviews major players involved in the pipeline product development. It also provides information about clinical trials in progress, which includes trial phase, trial status, trial start and end dates, and, the number of trials for the key Ophthalmic Diagnostic Equipment pipeline products.

This report is prepared using data sourced from in-house databases, secondary and primary research by team of industry experts.

Scope

- Extensive coverage of the Ophthalmic Diagnostic Equipment under development
- The report reviews details of major pipeline products which includes, product description, licensing and collaboration details and other developmental activities
- The report reviews the major players involved in the development of Ophthalmic Diagnostic Equipment and list all their pipeline projects
- The coverage of pipeline products based on various stages of development ranging from Early Development to Approved / Issued stage
- The report provides key clinical trial data of ongoing trials specific to pipeline products
- Recent developments in the segment / industry

Reasons to buy

The report enables you to -

- Formulate significant competitor information, analysis, and insights to improve R&D strategies
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Identify and understand important and diverse types of Ophthalmic Diagnostic Equipment under development
