Intrusion Detection System Market Size, Share, Segmentation, Insight Factors, Demand, Companies Profile Forecast to 2022

Intrusion Detection System Market Info, by Components (Hardware, Software), by Deployment (Cloud based, Infrastructure based), by End Users - Forecast 2016-2022

PUNE, MAHARASHTRA, INDIA, December 15, 2016 / EINPresswire.com/ -- Market Highlights:

IDS or Intrusion Detection System is a technology which can be deployed as a device or software to monitor the network activity and system of an organization.

This activity includes monitoring the malicious activity, policy violations, and unauthorized access to the system among others. As the security proliferation in the organizations is increasing, the market of IDS is also increasing.

Major Key players

•Dell (U.S.)
•IBM (U.S.)

> " The Major Key Players are Dell (U.S.), IBM (U.S.), Cisco (U.S.), Extreme Networks (U.S.), Symantec (U.S.), Metaflows, Inc. (U.S.), Hewlett-Packard (U.S.)"
> *Market Research Future*

•Cisco (U.S.)
•Extreme Networks (U.S.)
•Symantec (U.S.)
•Metaflows, Inc. (U.S.)
•Hewlett-Packard (U.S.)
•McAfee (California)
•Check point (Israel)
•Corero (Massachusetts)

Industry News

In August 2016, Symantec Corp announced the acquisition of Blue Coat a leading provider of web securities for the expansion of future cyber security system.
In July 2016, Symantec Corp announced the partnership with SSL Store for quick encryption of websites.

Target Audience

• SMEs
• Cloud Security Providers
• Infrastructure Security Providers
• Security System Providers
• Cloud Service Providers

The report for Global Intrusion Detection System Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 102 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Global Intrusion Detection System Market Research Report- Forecast 2022"

Study Objective of Intrusion Detection System Market

• To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Intrusion Detection System Market
• To provide insights about factors affecting the market growth
• To analyze the Intrusion Detection System market based on various factors- value chain analysis, porter's five force analysis etc.
• To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
• To provide country level analysis of the market with respect to the current market size and future prospective
• To provide country level analysis of the market for segment by deployment, by components, by end users and sub-segments
• To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
• To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Intrusion Detection System Market

Market Segmentation
Segmentation by Deployment:
• Cloud based
• Infrastructure based

Segmentation by Components:
• Hardware
• Software

Segmentation by End Users:

- BFSI
- IT & Communication
- Aerospace & Defense
- Software Industry
- Manufacturing,
- Government
- Healthcare

The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
