

Fort Myers Plumber, Plumbing Nerds, Offers DIY Advice For Home Plumbers

The SWFL plumbing company has posted a new slideshow tackling kitchen faucet replacement for homeowners eager to handle simple plumbing upgrades.

FORT MYERS, FL, USA, December 16, 2016 /EINPresswire.com/ -- Fort Myers plumber, [Plumbing Nerds](#), is proud to announce their first DIY slideshow, "How to Replace Your Kitchen Faucet in 6 Easy Steps". The slideshow is part of the company's Smarter Plumbing Solutions™ approach to plumbing in Florida, which emphasizes finding the best plumbing solution for the client's needs. View the slideshow on Slideshare.net by clicking [here](#).

Plumbing Nerds posted a new slideshow tackling kitchen faucet replacement for homeowners eager to handle simple plumbing upgrades.

"There are a lot of simple plumbing projects that most homeowners can tackle themselves; they just need to know how to do it. That's where our blog and slideshows come in. We try to explain the process in simple, easy to understand terms so that anyone who's game can try their hand at it. For uncomplicated projects, this can save homeowners some money and give them a feeling of accomplishment," explained John Verhoff of Plumbing Nerds (www.plumbingnerds.com).

"How to Replace Your Kitchen Faucet in 6 Easy Steps" is the first slideshow the company has produced, but it joins documents and infographics produced by the SWFL plumbing company on topics that range from choosing a garbage disposal to the pros and cons of re-piping a property.

Plumbing Nerds starts off the faucet tutorial with a word about preparation and planning ahead. For avid do-it-yourselfers, this is not surprising and is a critical first step in any project.

"It's really easy to get caught up in the looks and design of a faucet but the job will be much easier if you take a step back and think about how it will all come together. Even the easiest of jobs can turn complex. It is our hope that homeowners can use our slideshows to try their hand at simple repairs or upgrades, like replacing a faucet, or maybe they watch the slideshow and think, 'I need to call a pro'. For us, it's all about making information available so property owners can make the best choices for their specific needs and skill levels," noted Verhoff.

Plumbing Nerds' Smarter Plumbing Solutions™ approach helps property owners learn more about plumbing, make sense of their options, understand what needs to be done, and decide when it's best to call a professional. Learn more about the Florida plumbers by visiting their website at www.plumbingnerds.com, reading their blog, [Nerd News](#), or by calling a nerd at 239-471-7557.

About Plumbing Nerds: Plumbing Nerds uses the latest equipment and technology to deliver Smarter Plumbing Solutions™ with nerd-like enthusiasm. The Fort Myers plumbing company works hard to find the best solution for the customer, taking the time to explain options and solutions to help them

make smart choices. Plumbing Nerds is a Certified Plumbing Contractor serving residential and commercial customers in Southwest Florida.
