## China Sports Market Overview

China sports industry is expected to be more than US\$ 100 Billion industry by the year 2020. To achieve this impressive growth China sports market is expected to grow with double digit CAGR. In the year 2010 Sports Apparel used to be the biggest market, but by 2015 Sports Equipment has overtaken Sports Apparel market. Company sales are highly fragmented and no single company holds double digit market share. Primarily because the sports market is a vast segment and it's difficult for one company to be present in all segments. Rising awareness of a healthier lifestyle, acceleration of urbanization and proactive government support are the factors driving China Sports Market.++
