-- Ware, Hertfordshire, December 2016.  
Author James A Craker is a man on a mission - to help children connect with their emotions, lift spirits and generally be happier. Having looked after children from varying backgrounds as his role as a foster carer, it was apparent some of the children needed prompting to be more positive.

The Cloud that Fell to Earth tells the tale of a stranded cloud that receives help from friends Sam and Sunny who try various activities to get the cloud back home into the sky. Eventually their great efforts pay off but not how they initially expected!

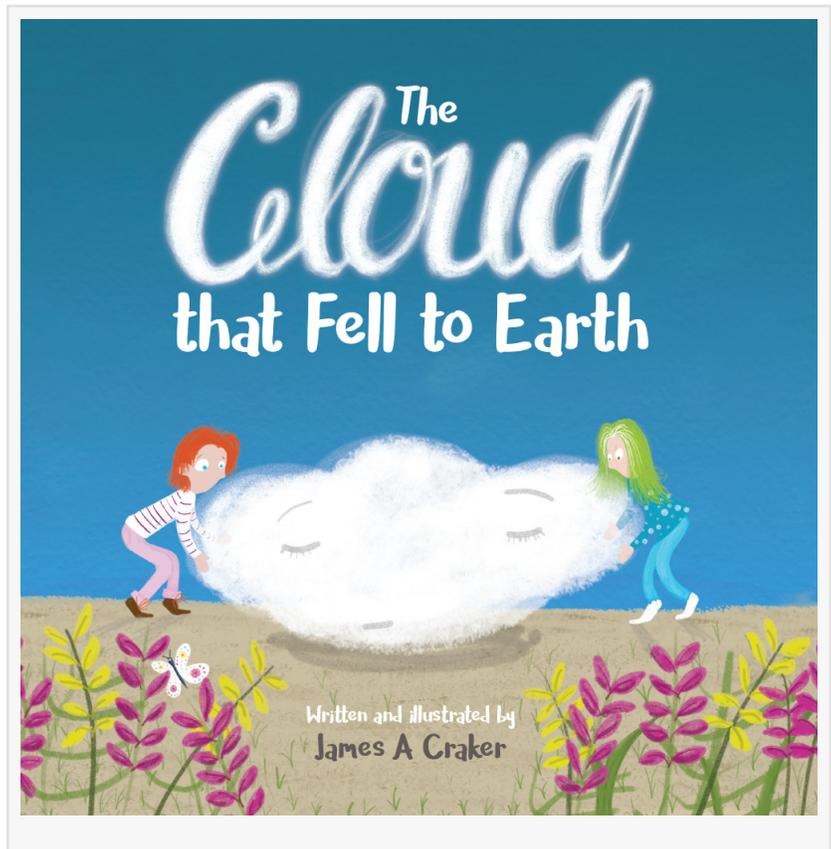

A must have for young children which reminds them to be nice and kind to others and also to work in a team.

“

What a lovely way to portray an important message to children. My 8 year old daughter said "it shows you what can happen if you are kind".

Finding the hidden creatures at the end is a nice touch!
