CARSON, CA, UNITED STATES, December 19, 2016 /EINPresswire.com/ -- HEAR WITHOUT REMOVING YOUR EARPLUGS

Flip to Listen are the first dual mode earplugs that not only protect wearers from noise but, with a quick Flip, also allow better communication when needed, without the inconvenience of removing earplugs.

## PROTECTION AND COMMUNICATION

The Flip cap allows one to easily switch from a closed position (NRR 24dB), for protection from continuous noise, to an open position (NRR 4dB), when one needs to communicate or hear. Effective hearing protection for most noisy environments, plus the ability to hear more clearly away from the workplace. All without taking out the earplugs and having to refit them again.

## COMFORT ALL DAY LONG

Flip to Listen features a triple flange design that provides maximum comfort for all day wear. The soft flexible flanges provide a superior seal and fit most ear canals. The Flip to Listen stem helps one insert the earplug into the ear canal to get a good and secure fit, ready for protection and communication!
