Summary

"Geothermal Power in the US, Market Outlook to 2030, Update 2016 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles" is the latest report from the industry analysis specialists that offer comprehensive information and understanding of the wind power market in US.

The report provides in depth analysis on global renewable power market and global geothermal power market with forecasts up to 2030. The report analyzes the power market scenario in US (includes conventional thermal, nuclear, large hydro and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details renewable power market outlook in the country (includes wind, small hydro, biopower and solar PV) and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in [US geothermal power](#) market. A detailed coverage of renewable energy policy framework governing the market with specific policies pertaining to geothermal power is provided in the report. The research also provides company snapshots of some of the major market participants.

The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by team of industry experts.

Scope

The report analyses global renewable power market, global geothermal power market, US power market, US renewable power market and US geothermal market. The scope of the research includes -

- A brief introduction on global carbon emissions and global primary energy consumption.
- An overview on global renewable power market, highlighting installed capacity trends, generation trends and installed capacity split by various renewable power sources. The information is covered for the historical period 2006-2015 (unless specified) and forecast period 2015-2030.
- Renewable power sources include geothermal, solar photovoltaic (PV), concentrated solar power (CSP), small hydropower (SHP), biomass, biogas and wind.
- Detailed overview of the global geothermal power market with installed capacity and generation trends, installed capacity split by major geothermal power countries in 2015.
- Power market scenario in US and provides detailed market overview, installed capacity and

power generation trends by various fuel types (includes thermal conventional, nuclear, large hydro and renewable energy sources) with forecasts up to 2030.

- An overview on US renewable power market, highlighting installed capacity trends (2006-2030), generation trends(2006-2030) and installed capacity split by various renewable power sources in 2015.
- Detailed overview of US geothermal power market with installed capacity and generation trends and major active and upcoming geothermal projects.
- Deal analysis of US geothermal power market. Deals are analyzed on the basis of mergers, acquisitions, partnership, asset finance, debt offering, equity offering, private equity (PE) and venture capitalists (VC).
- Key policies and regulatory framework supporting the development of renewable power sources in general and geothermal power in particular.
- Company snapshots of some of the major market participants in the country.

Reasons to buy

- The report will enhance your decision making capability in a more rapid and time sensitive manner.
- Identify key growth and investment opportunities in US geothermal power market.
- Facilitate decision-making based on strong historic and forecast data for geothermal power market.
- Position yourself to gain the maximum advantage of the industry's growth potential.
- Develop strategies based on the latest regulatory events.
- Identify key partners and business development avenues.
- Understand and respond to your competitors' business structure, strategy and prospects.

Table of Contents

1 Table of Contents	2
1.1 List of Tables	6
1.2 List of Figures	8
2 Executive Summary	9
2.1 Government Support in Conjunction with Technology Development Driving Global Renewable Power Installations	9
2.2 Thermal Power is the Dominant Source in the Power Mix	9
2.3 Renewable Sources Forecast to Witness Maximum Growth	10
3 Introduction	11
3.1 Carbon Emissions, Global, 2001-2015	11
3.2 Primary Energy Consumption, Global, 2001-2025	14
3.3 Technology Definition	16
3.3.1 Conversion Technologies	16
3.4 Report Guidance	17
4 Renewable Power Market, Global, 2006-2030	18
9 Power Market, US, Regulatory Scenario	68
10 Geothermal Power Market, US, Company Profiles	124
11 Appendix	139
