PUNE, MAHARASHTRA, INDIA, December 22, 2016 /EINPresswire.com/ -- [Mixed Reality Industry](#)

Description

According to Statistics MRC, the Global Mixed Reality Market is accounted for \$28.34 million in 2015 and is expected to reach \$1374.29 million by 2022 growing at a CAGR of 74.1% from 2015 to 2022. Mixed reality medical education and research projects in the European region will provide immense growth opportunity for the market over the forecast period. Furthermore, growing internet connectivity, immense development of hardware & software component for reality technologies and growing access for head mount display (HMD) devices in sports, gaming and entertainment industries are the reasons behind the favourable market growth. However, limited battery life and graphical content creation are the major hurdles in the market.

Entertainment sector is witnessing extraordinary growth in the market. North America is expected to lead the global market over the forecast period while Asia pacific is anticipated as the fastest growing market due to increasing access to mixed reality solutions which provides real time situational images captured by existing smart devices.
