

Blood Transfusion Diagnostics Market Regional Analysis, Market Share and Forecast to 2027.

Global Blood Transfusion Diagnostics Market by Type (Instruments, Reagents), By Application (Blood Grouping, disease Screening), By End users - Forecast to 2027

PUNE, MAHARASHTRA, INDIA, December 22, 2016 /EINPresswire.com/ -- Market Scenario

Major Key Players
Immucor(U.S), Ortho Clinical
Diagnostics (U.S), Beckman
Coulter (U.S), Quotient
Limited (U.S), Diagast
(France), Abbott Diagnostics
(U.S), Novartis AG
(Switzerland), Becton
Dickinson"

Market Research Future

Globally the market for Blood Transfusion Diagnostics is increasing rapidly mainly due to increasing transfusion safety. The factors that influence the growth of blood transfusion diagnostics market; increasing safety with nucleic acid testing, blood testing products, immunoassay reagents that recognize irresistible infection, safety in blood preservations, pre-typing of blood donors and others.

Key Players

Market Research Future (MRFR) recognizes the following companies as the key players

- Immucor (U.S)
- Ortho Clinical Diagnostics (U.S)

- Beckman Coulter (U.S)
- Quotient Limited (U.S)
- Diagast (France)
- Abbott Diagnostics (U.S)
- Novartis AG (Switzerland)
- Becton Dickinson (U.S)
- BAG healthcare (Germany)
- DiaSorin (Italy)
- Eujirebio (Belgium)
- Grifols (Spain)
- Siemens (Germany),
- Quidel (U.S),
- Hologic/Gen-Probe (U.S)
- Biokit (Spain)
- Bio-Rad (U.S).

Study Objectives of Blood Transfusion Diagnostics

- To provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the [global blood transfusion diagnostics market](#)
- To provide insights about factors affecting the market growth
- Assessment of current and emerging technologies, and their potential applications for the blood banking market.
- Comprehensive lists of companies developing or marketing new technologies and products, by

test.

- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia, and Middle East & Africa.
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by type, by applications, end users and its sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 200 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Global Blood Transfusion Diagnostics Market Research Report - Forecast to 2027"

Segments

The market for Blood Transfusion Diagnostics is segmented into mainly three; by type, by application and by End users and its various sub-segments.

On the basis of type

- Instruments
- Reagents
- Others.

On the basis of application

- Blood Grouping
- Disease Screening
- Others.

On the basis of end users

- Hospital,
- Laboratories
- Blood Banks
- Plasma Fractionation Facilities
- Military Blood Banks
- Others

The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

Key questions answered in this report

- What will the market size be in 2027 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
