Summary

Pharmaceutical and Healthcare disease pipeline guide [Multiple Sclerosis – Pipeline Review, H2 2016](#), provides an overview of the Multiple Sclerosis (Central Nervous System) pipeline landscape.

Multiple sclerosis (MS) is a potentially debilitating disease in which body's immune system eats away at the protective sheath (myelin) that covers nerves. Damage to myelin causes interference in the communication between brain, spinal cord and other areas of body. Symptoms include numbness or weakness in one or more limbs, double vision or blurring of vision, tingling or pain in parts of body, fatigue and slurred speech. The predisposing factors include age, gender, family history and certain infections.

Report Highlights

Pharmaceutical and Healthcare latest pipeline guide Multiple Sclerosis – Pipeline Review, H2 2016, provides comprehensive information on the therapeutics under development for Multiple Sclerosis (Central Nervous System), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Multiple Sclerosis (Central Nervous System) pipeline guide also reviews of key players involved in therapeutic development for Multiple Sclerosis and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Pre-Registration, Phase III, Phase II, Phase I, Preclinical, Discovery and Unknown stages are 5, 9, 30, 32, 173, 36 and 2 respectively. Similarly, the Universities portfolio in Phase II, Phase I, Preclinical and Discovery stages comprises 1, 4, 46 and 2 molecules, respectively.

Multiple Sclerosis (Central Nervous System) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university

sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Multiple Sclerosis (Central Nervous System).
- The pipeline guide reviews pipeline therapeutics for Multiple Sclerosis (Central Nervous System) by companies and universities/research institutes based on information derived from company and industry-specific sources.
- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.
- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.
- The pipeline guide reviews key companies involved in Multiple Sclerosis (Central Nervous System) therapeutics and enlists all their major and minor projects.
- The pipeline guide evaluates Multiple Sclerosis (Central Nervous System) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.
- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.
- The pipeline guide reviews latest news related to pipeline therapeutics for Multiple Sclerosis (Central Nervous System)

Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.
- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Find and recognize significant and varied types of therapeutics under development for Multiple Sclerosis (Central Nervous System).
- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.
- Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.
- Formulate corrective measures for pipeline projects by understanding Multiple Sclerosis (Central Nervous System) pipeline depth and focus of Indication therapeutics.
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.
- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Table of Contents

Table of Contents 2

Introduction 10

Multiple Sclerosis Overview 11

Therapeutics Development 12

Multiple Sclerosis - Therapeutics under Development by Companies 14

Multiple Sclerosis - Therapeutics under Investigation by Universities/Institutes 31

Multiple Sclerosis - Pipeline Products Glance 34

Multiple Sclerosis - Products under Development by Companies 38

Multiple Sclerosis - Products under Investigation by Universities/Institutes 58

Multiple Sclerosis - Companies Involved in Therapeutics Development 62

Multiple Sclerosis - Therapeutics Assessment 250

Drug Profiles 291

Multiple Sclerosis - Dormant Projects 839

Multiple Sclerosis - Discontinued Products 864

Multiple Sclerosis - Product Development Milestones 869
