Smart Homes Market 2016 Global Trends, Market Share, Industry Size, Growth, Opportunities, and Forecast to 2020

PUNE, INDIA, December 23, 2016

/EINPresswire.com/ -- The global market for [Smart Homes](#) to increase from \$20.5 billion in 2014 to \$76.7 billion by 2020 with a CAGR of 24.6%. North America and Europe are the big markets for Smart Homes. As Asia Pacific regions economy is growing at a fast pace and with the rise of middle class, this region is estimated to be the fastest growing region for Smart Homes.

The technology has evolved a lot in the last decade and this has enabled lot of devices to be controlled by just one device. Various devices like CCTV cameras, lighting, AC, TV, washing machine etc. can be controlled by either a remote or a smartphone or tablet. These devices can be switched on or off from a different location provided the device controlling gets a signal. This can help in energy conservation when people often forget to switch off lights or some devices while leaving the house. As the CCTV footage can be seen anywhere it gives the homeowners a sense of security leaving the house closed for a few days and even the alarm systems placed in the house can be controlled remotely if any burglary or theft is taking place in the house.
