The analysts forecast the global fluoropolymer market in the healthcare industry to grow at a CAGR of 7.19% during the period 2016-2020.

Fluoropolymers are fluorocarbon-based polymers formed by strong bonding between carbon and fluorine, which makes them mechanically stable. They are high-performance plastics and are characterized by high resistance to acids, bases, and solvents. Fluoropolymers account for about 20% of all the fluorochemicals available in the market.

Covered in this report

The report covers the present scenario and the growth prospects of the global fluoropolymer market in the healthcare industry for 2016-2020. To calculate the market size, the report considers the revenue generated from the fluoropolymer market in the healthcare industry across regions has been considered for market size calculation.

The market is divided into the following segments based on geography:

- APAC
- Europe
- North America
- ROW

The report, Global Fluoropolymer Market in the Healthcare Industry 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of

the key vendors operating in this market.

Key vendors

- Asahi Glass
- Solvay
- Honeywell
- Daikin Industries
- Chemours
- 3M

Complete Report Details @ <https://www.wiseguyreports.com/reports/837595-global-fluoropolymer-market-in-healthcare-industry-2016-2020>

Other prominent vendors

- Arkema
- Chicago Gasket
- Dongyue Group
- Flontech USA
- Mexichem
- NORELL
- Saint-Gobain Performance Plastics
- W. L. Gore & Associates
- Zeus Industrial Products

Market driver

- Replacement of plastics by fluoropolymers.
- For a full, detailed list, view our report

Market challenge

- Intense competition from low-cost products from China.
- For a full, detailed list, view our report

Market trend

- Increased penetration of low volume polymers.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Overview
- Categorization of fluoropolymers

PART 05: Market landscape

- Global fluoropolymer market in healthcare industry
- Global customer base concentration
- Five forces analysis

PART 06: Market segmentation by product type

- Global fluoropolymer market in healthcare industry by product type
- Global PTFE market in healthcare industry
- Global other fluoropolymers market in healthcare industry

PART 07: Market segmentation by application

- Global fluoropolymer market in healthcare industry by application
- Global fluoropolymer market in healthcare industry for pharmaceutical packaging
- Global fluoropolymer market in healthcare industry for medical devices
- Global fluoropolymer market in healthcare industry for drug delivery
- Global fluoropolymer market in healthcare industry for other applications

PART 08: Geographical segmentation

- Market segmentation by geography
- Fluoropolymer market for healthcare industry in APAC
- Fluoropolymer market for healthcare industry in North America
- Fluoropolymer market for healthcare industry in Europe
- Fluoropolymer market for healthcare industry in ROW

PART 09: Key leading countries

- US
- Japan
- Germany
- China
- France

PART 10: Market drivers

- Replacement of plastics by fluoropolymers
- Rapid growth in APAC
- Superior properties of fluoropolymers
- Growth of global healthcare industry

PART 11: Impact of drivers

PART 12: Market challenges

- Pricing constraints
- Intense competition from low-cost products from China
- Challenges in raw material supply
- Health and environmental concerns

PART 13: Impact of drivers and challenges

PART 14: Market trends

- Increased expenditure on R&D
- Growing consumer knowledge
- Increased penetration of low volume fluoropolymers
