PUNE, MAHARASHTRA , INDIA , December 23, 2016 /EINPresswire.com/ -- Market Highlights:

Key Players: Becton, Dickinson and Company, Ethicon Inc., B. Braun Medical Inc.”

*Market Research Future*

Needles and syringes are collectively known as a “sharps”. These are the most widely used medical disposables across the globe. Needle or syringes can be defined as the device consisting of a glass, metal, or rubber tube with a nozzle and piston for sucking in and ejecting liquid in a thin stream. The main purpose of these needles is to clean wounds by injecting or sucking fluids into the body. Special purpose syringes and needles are used for different purposes like blood collection needles and suture needles

etc. Global needle and syringes market is expected to grow at a rate of 5.5% during the forecasted period.

Market Influencer:

The market of needles, syringes, and disposable needles or we can say for disposable medical products has expanded considerably due to increase in the number of outpatient procedures and due to the increasing awareness of disease such as HIV/AIDS, simplex malaria, typhus and etc.

Increasing healthcare awareness and recent fitness trends, advancement in product technology can also influence the syringes and needle market. However lack of knowledge and skilled professionals can act as a barrier for the syringes and needle market.
