

TV White Space Spectrum Market Expected to Grow at CAGR 75.3% and Forecast to 2022

TV White Space Spectrum -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2022

PUNE, MAHARASHTRA, INDIA, December 23, 2016 /EINPresswire.com/ -- [TV White Space Spectrum](#) Industry

Description

Wiseguyreports.Com Adds “TV White Space Spectrum -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021” To Its Research Database

According to Statistics MRC, the Global TV White Space Spectrum Market is accounted for \$1.12 million in 2015 and expected to grow at a CAGR of 75.3% to reach \$57.11 million by 2022. Factors such as increasing regulations, development in TVWS technology and urban connectivity are driving the market growth. However, the non commercialised standards and regulations may hamper market growth. Delivering unused TV band frequencies will provide opportunity for the market growth.

Rural Internet access segment is witnessed to be the largest share of the End User market during the forecast period. The portable white space devices segment is accounted for the highest growth due to availability of smartphones, tablets and laptops. North America commanded the market due to the widespread use of TVWS spectrum technology in varied infrastructures.
