## Description

Wiseguyreports.Com Adds “Edge Analytics -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021” To Its Research Database

According to Statistics MRC, the Global Edge Analytics market is expected to grow from \$1.54 billion in 2015 to reach \$10.38 billion by 2022 with a CAGR of 31.3%. Increasing demand of edge analytics products on network devices, growing demand of additional edge analytical solutions across industries, intensifying broadcast of data are the current trends in edge analytics market. Arrival of IoT and production of huge quantity of data through associated devices and the enlarged acceptance of edge analytics due to its scalability and cost optimizations have fueled the growth of edge analytics. However, dearth of universally accepted standards and safety and security issues are hindering the edge analytics market.

Solutions is likely to be the fastest emerging component in the edge analytics market due to several varied devices associated mutually and are included inside the device enabling real time analysis and advance decision making capabilities. Asia Pacific is estimated to rise at the highest CAGR throughout the forecast period due to incredible demand for consumption of edge analytics technologies with sophisticated analytics solutions that provides inclusive support and specialty in real-time access of data, facilitating enterprises to understand business scenario, and obtain faster and quicker decisions.
