

# Chinese Pioneer in Diabetes Management will Make a Stage Pose in CES 2017

BEIJING, CHINA, December 25, 2016 /EINPresswire.com/ -- It's reported that Dnurse, Chinese pioneer in [diabetes](#) management, is going to flex its muscle in the CES of Las Vegas from January 5th to 8th 2017 with all kinds of its innovative products.

Since its foundation, it has led the the industry's new trend. The current prominent flagship products including Dnurse Glucose meter with independent developed APP, Insulink, Dnurse Xing and Dnurse Pro. Compared with traditional blood glucose meters, it enjoys a much lighter volume and weight which makes it much more convenient to convey. It realizes the goal of real-time monitoring and protecting by doctors, users and carers in virtue of mobile database that can be instantly connected with its own glucose meter.

Accompanying tiny amount of blood, the small-sized Dnurse Glucose meter consumes low power to test blood everywhere and anytime. Then, Dnurse APP analyzes blood glucose sample and generates graphs for a quick glimpse. Besides, you can track your blood glucose, identify the trend, and further make predictions. Dnurse APP sends you voice alerts just as your personal nurse. You will know whether you take the right amount of food, [insulin](#), or get enough exercises.

As diabetics' demands increasing in China, Insulink, invented by Dnurse, is the first wearable tracker in the world to record insulin dosages automatically to help diabetics efficiently manage their own blood glucose levels. It boasts a state-of-the-art Internet product incorporating blood sugar levels, insulin figure, medicine, diet, workout data, and personal tips into a whole. It can apply to all Lilly pens but for Lilly LUXURA ergo 2, the diameter needs 2mm more. Currently, insulink starts submitting for recording and applying for trademark registration in more than 21 countries including China, America and 19 countries of EU.

As a leading innovative brand in the field, its CEO and CFO pay much attention to this exhibition expo and will be on site in sands hall A-D\_43853\_ to make immediate responses of various questions from all sectors of social communities. Committed to promote industry progress and serve diverse groups by heart and soul, Dnurse designed an open system at the birth for easier research, development and production. It will definitely bring new directions and measures to the industry.
