PUNE, INDIA, January 5, 2017 /EINPresswire.com/ --

## Summary

According to Statistics MRC, the Global [Software defined perimeter \(SDP\)](#) Market is accounted for \$737.25 million in 2015 and is expected to reach \$6,102.2 million by 2022 growing at a CAGR of 35.2% from 2015 to 2022. SDP is a security framework developed by cloud security alliance, this framework is based on department of defence's "need to know" model. Some of the key drivers that are influencing the SDP market include lack of cyber security talent, growing usage of cloud based applications, strong regulation and compliance requirements and demand for policy driven, scalable and programmable security architecture. However, lack of awareness with reference to security in virtualization environment is constraining the market. Moreover, rising number of coupled devices due to IOT & BYOD trends and increasing demand for SDP's will offer a predominant growth opportunities for the market.
