

# Smart City ICT Infrastructure 2017 Global Market Expected to Grow at CAGR 17.12% and Forecast to 2020

PUNE, INDIA, January 6, 2017 / EINPresswire.com/ --

WiseGuyReports.Com Publish a New Market Research Report On – “Smart City ICT Infrastructure 2017 Global Market Expected to Grow at CAGR 17.12% and Forecast to 2020”.

The analysts forecast the [global smart city ICT infrastructure market](#) to grow at a CAGR of 17.12% during the period 2016-2020.

The rapid growth in urban population is increasing the demand for basic amenities that include transportation, healthcare, residents' safety, and education. The traditional operations in cities were ineffective and allowed only one-way distribution system for energy and water. However, with the advances in digital technology, the two-way communication became possible, and machine-to-machine (M2M) technology evolved further to provide smart grid, smart water management systems, smart transport system, and smart building system. All of these verticals form the smart city; and the development of smart cities is needed.

The smart city concept is a framework to support the vision of various governments, IT players, network providers, product providers, and managed service providers.

Covered in this report

The report covers the present scenario and the growth prospects of the global smart city ICT infrastructure market for the period 2016-2020. To calculate the market size, the report considers the revenue generated from the ICT infrastructure deployed on the following:

- Smart grid
- Smart home and building
- Smart water network
- Smart healthcare

- Smart education
- Smart security
- Smart transport

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Smart City ICT Infrastructure Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- ABB
- AT&T
- China Mobile
- Cisco
- Hitachi
- Honeywell
- Huawei
- IBM
- NTT Communications
- Oracle
- Siemens
- Verizon Communications
- Vodafone

Other prominent vendors

- Accenture
- Alcatel-Lucent
- Deutsche Telekom
- Ericsson
- HP
- Microsoft
- Schneider Electric
- Telefonica
- Toshiba

Market driver

- Rapid urbanization
- For a full, detailed list, view our report

Market challenge

- High costs
- For a full, detailed list, view our report

Complete Report Details @ <https://www.wiseguyreports.com/reports/461379-global-smart-city-ict-infrastructure-market-ict-infrastructure-market-2016-2020>

Market trend

- Evolution of IoT
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

## Table Of Contents – Major Key Points

### PART 01: Executive summary

- Highlights

### PART 02: Scope of the report

- Market overview
- Top-vendor offerings

### PART 03: Market research methodology

- Research methodology
- Economic indicators

### PART 04: Introduction

- Key market highlights

### PART 05: Market landscape

- ICT Infrastructure
- Market overview
- Market size and forecast
- Five forces model

### PART 06: Market segmentation by components

- Market size by components for 2015

### PART 07: Geographical segmentation

- Geographical segmentation of smart city ICT infrastructure market 2015
- Geographical segmentation of smart city ICT infrastructure market 2020
- Smart city ICT infrastructure market in Americas
- Smart city ICT infrastructure market in EMEA
- Smart city ICT infrastructure market in APAC

### PART 08: Market drivers

- Rapid urbanization
- Increase in adoption of tablets and wireless technology
- Rise in demand for high quality life standards
- Need for energy efficiency

### PART 09: Impact of drivers

### PART 10: Market challenges

- High costs
- Complexity of data management
- Security concerns
- Rapid evolution of technology

### PART 11: Impact of drivers and challenges

PART 12: Market trends

- Evolution of IoT
- Growing partnerships
- Increased interoperability standards
- Introduction of advanced equipment
- Increased availability of self-help smart applications
