

Press Release & Release Date for "Satellite Repairman" (PC/Mac)

*Upcoming PC/Mac/Linux
action/management game*

FUNDÃO, PORTUGAL, January 6, 2017
/EINPresswire.com/ -- Indie game
developer Nuno Donato announced it's
newest game titled "Satellite Repairman"
- a mixture of action, base building and
strategy with the indie touch, to be
released on the 2nd of February 2017.

The game's Steam Store page is already
launched featuring videos and
screenshots of the gameplay:

<http://store.steampowered.com/app/567780/>

It's [official website](http://www.satelliterepairman.com) is at
www.satelliterepairman.com

About Satellite Repairman

All the planets in the system have
suddenly decided that the galaxy isn't big
enough for all of them! You're not sure
who launched the first missile and it
doesn't really matter! You've got nothing
to do with it... you are just... the satellite
repairman!

As a Qualified Satellite Repairman, you
must manage a complex system of
satellites to ensure that your planet is
able to maintain its defenses from
incoming missile threats. Repair,
upgrade, research and launch new
satellites and plug-able modules.
Maintain the vital GPS and Cell signals
to keep communications alive throughout
the planet, ensuring a quick and efficient
defense to counter enemy attacks.

How long can you last?

Different Gameplay Modes

Mission Scenarios (goal-oriented levels)

Endless Survival (survive attack waves)

Sandbox mode (create your own challenges)

Research new technology

Use the Research Center to upgrade and research new technology, improving your skills, unlocking new satellites modules and defense systems.

Plan and deploy

Order and deploy new satellites and buildings to lay out a perfect defensive strategy for your planet.

3 different planets

Play across 3 different planets, each with its own challenges.
