

Global Mobile Device Management Market 2017 Share, Trend, Segmentation and Forecast to 2022

Mobile Device Management Market is valued at \$1.41 billion in 2015 and is expected to reach \$6.64 billion by 2022 growing at a CAGR of 24.7% from 2015 to 2022.

PUNE, MAHARASHTRA, INDIA, January 9, 2017 /EINPresswire.com/ -- [Mobile Device Management Industry](#)

Description

According to Statistics MRC, the Global Mobile Device Management Market is valued at \$1.41 billion in 2015 and is expected to reach \$6.64 billion by 2022 growing at a CAGR of 24.7% from 2015 to 2022. Mobile Device Management (MDM) solutions manage device capabilities, data security, network connectivity, and other various aspects of mobile devices. The proliferation in demand for handled devices used from enterprises and individuals is anticipated to support the demand for Mobile Device Management solutions.

By region, North America is anticipated to account for the largest market share and continue to influence the global mobile device management market in 2016, due to the development in mobile workforce, smart phones penetration, BYOD trend, and higher cloud-based deployment of MDM solutions due to the accessibility of cloud data centers in the region. However Asia Pacific is expected to grow at the highest rate during the forecast period as the enterprises in this region are planning to adopt enterprise mobility solutions to manage the demands of the dynamic mobile personnel. Managed services segment dominates the largest share of the global Mobile Device Management (MDM) services market.
