

Doulagivers Announcing Live Certification Workshops in NYC this Summer

Doulagivers is Offering Live Certification Workshops for their Renowned End of Life Doula Certification Training in July and August this Summer in NYC.

NEW YORK CITY, NEW YORK, UNITED STATES, June 18, 2017

/EINPresswire.com/ -- [Doulagivers](#), the leader of specialized training in End of Life Care and End of Life Doulas is offering live workshops in New York City for their distinguished [End of Life Doula Certification training](#).

The End of Life Doula Certification training is for those who wish to be Certified End of Life Doulas. This course covers all aspects of the Doulagivers End of Life Practitioners training. This is a new specialized area of non-medical health care. This training is for those who have a calling and desire to support and guide both patients and families through the end of life process. There is no

national or international governing bodies for End of Life Doulas. This is a human skill. Following in the footsteps of the birthing doula movement that has been a successful specialized non-medical field in the area of childbirth for decades, now is the time for us to offer the same care and support for those at end of life.

“

As long as they go through a training process, I think end of life doulas can compliment the work of the hospice team really well. The more people there to help a patient and family the better.”

*John Mastrojohn III -VP of
NHPCO*

All trainings are conveniently available online as well so that you can take them from anywhere in the world.

The Doulagivers Level 1 Family Caregiver Training is always available for free. You are encouraged to take advantage of this life changing knowledge.

Death Doulas were included in Time Magazine's list of New Cutting-Edge Jobs for 2017.

The Dates for the Live Workshops will be:
