## Summary

"[Oil Storage](#) Industry Outlook in South and Central America and Caribbean to 2020 - Capacity and Capital Expenditure

Forecasts with Details of All Operating and Planned Terminals" is a comprehensive report providing information on storage terminals that store crude oil, petroleum products or, chemicals in Africa. Typical information on terminals includes terminal name, operator name, storage capacity and commodity stored for all active and planned terminals. The report also provides capital expenditure outlook at regional level by year and by key countries for oil storage terminals till 2020. The report also provides key country comparisons within the region based on contribution to regional oil storage capacity. Planned (new build) terminals capacity addition and existing capacity expansions, as announced by the companies have also been included. Further the report also offers recent developments as well as latest tenders and contracts at the country level where available.

## Scope

- Updated information relating to all active and planned oil storage terminals
- Provides historical data from 2010 to 2015, forecast to 2020
- Capacity information of all oil storage terminals
- Provides operator information for all active and planned oil storage terminals
