Summary

"[Solar PV Balance](#) of System, Update 2016 - Global Market Size, Technology Review, Cost Analysis, and Key Country Analysis to 2020" provides in-depth analysis of the global solar PV BOS

market. The report also provides solar PV BOS market analysis of key countries including the US, Canada, China, Japan, India, Australia, Germany, UK, Italy and South Africa. The research provides historical and forecast data to 2020 for installed capacity, overall BOS cost and BOS market size. The report analyzes the historical and forecast costs and market sizes of BOS components, and provides detailed information on the major trends in the BOS market along with the inverter market share in each of the key countries. The report also provides a regional overview of historical and forecast installed capacity and market sizes of overall BOS.

Scope

The report analyses Solar PV Balance of System market. Its scope includes -

- The report gives an introduction to solar PV modules and the BOS.
- The report discusses the installed capacity of solar PV plants globally, regionally and separately for each of the key countries.
- The report provides the historical and forecasted market size of solar BOS globally, regionally and in each of the key countries considered.
- The report also discusses the cost and market size of major components that are part of the BOS and also provides the market share of inverters that form the key component of BOS.
- The report summarizes the major trends in the global BOS market, in each region and the key solar PV countries.
- The report also discusses the major drivers and restraints to the growth of the solar PV market globally.

Reasons to buy

This report will enable the buyer to -

- Facilitate decision-making based on strong historical and forecast data for the solar PV BOS market
- Develop strategies based on the latest market trends
- Position yourself to maximize potential in the growth of the solar PV BOS market
- Identify key partners and business development avenues
