

Acetyl Global Market Segmentation and Major Players Analysis and Forecast to 2021

Acetyl Market 2017 Global Trends, Market Share, Industry Size, Growth, Opportunities, and Forecast to 2021

PUNE, INDIA, January 11, 2017

/EINPresswire.com/ -- The global [acetyl](#) market has been estimated at USD XX billion in 2016 and is projected to reach USD XX billion by 2021, at a CAGR of XX% during the forecast period, 2016 to 2021.

Acetyl is a functional group of the organic compound which contains a methyl group single-bonded to a carbonyl. It is used as an intermediary in various applications such as modified starches, solvents, adhesives, paints, emulsifiers, pain-relief medicines and numerous other applications.

Market Dynamics

The increasing use of acetyl as a raw material in paints, adhesives, coatings and in the colorants industry, along with the increased application in enhanced drug delivery, and growing application in the food and beverage industry are expected to drive the acetyl market through the forecast period. However, the declining consumption of solvent borne adhesives will act as a roadblock to the growth of the global acetyl market.
