

# CyberSec2017 International Conference in Ethiopia Calls for Papers and Participation

*CyberSec2017 will be held with presentations by researchers from the international community, presentations from keynote speakers and state-of-the-art lectures.*

ADDIS ABABA, ETHIOPIA, January 11, 2017 /EINPresswire.com/ -- The Fifth International [Conference](#) on Cyber Security, Cyber Welfare and Digital Forensic hits another historical peak. With its fifth installation, this conference is expected to reach even greater heights more than the marvelous success already of its previous predecessors.

The conference will welcome research subjects like but not limited to Cyber security, Digital forensics, Information assurance and security management, cyber warfare/peacefare and physical security, surveillance systems, fraud management and other related field of research.

Like the previous four successful event, the conference expects the participation of some of the most successful researchers from different parts of the world. Aside from the research presentation, some other important activities that will also take place on the conference are sessions, discussions, information sharing, workshops and other exciting activities not to mention the short and fun filled scientific tour.

The paper review process is to be carried out by at least 2 reviewers via double-blind review ensuring that the identity of both the researcher and the reviewers remains hidden for optimum quality.

The Fifth International Cyber Security, Cyber Welfare and Digital Forensic (CyberSec2017)

St. Mary's University, Addis Ababa, Ethiopia  
April 22-24, 2017

All registered papers will be published in SDIWC Digital Library.

Call for Papers and Participation in **The Fifth International Cyber Security, Cyber Welfare and Digital Forensic (CyberSec2017)** to be hosted by **St. Mary's University, Addis Ababa, Ethiopia** on **April 22-24, 2017**. The event will be held over three days, with presentations delivered by researchers from the international community, including presentations from keynote speakers and state-of-the-art lectures.

THE CONFERENCE WELCOMES PAPERS ON THE FOLLOWING RESEARCH TOPICS:

Cyber Security	Information Assurance and Security Management
Enterprise Systems Security	Critical Infrastructure Protection
Hardware-Based security	Fraud Management
Legal Issues	Laws and Regulations
Operating Systems and Database Security	Corporate Governance
SCADA and Embedded systems security	Decidability and Complexity
Security for Future Networks	Economics of Security
Security in Social Networks	Identity Management
Security protocols	Security Policies and Trust Management
Digital Forensic	Cyber Peacefare and Physical Security
Anti-Forensics and Anti-Anti-Forensics Techniques	Authentication and Access Control Systems
Cyber-Crimes	Biometrics standards and standardization
Evidentiary Aspects of Digital Forensics	Social engineering
Information Hiding	Biometrics Applications
Large-Scale Investigations	Cyber Peacefare Trends and Approaches
Executable Content and Content Filtering	New theories and algorithms in biometrics
Investigation of Insider Attacks	Surveillance Systems
Malware forensics and Anti-Malware techniques	Template Protection and Liveness detection

**Deadlines**

Submission	April 1, 2017
Acceptance Notification	April 12, 2017
Camera Ready	April 16, 2017
Registration	April 16, 2017

**Special Issues**
