

Global Renewable Chemicals Market Analysis, Size, Share, Growth, Trends and Forecast, 2016 – 2021

Global Renewable Chemicals Market Information By Types (Alcohols, Organic Acids, Ketones, Platform Chemicals, Polymers) & By Applications - Forecast To 2021

PUNE, MAHARASHTRA, INDIA,
January 12, 2017 /EINPresswire.com/ --
Market Highlights:

The several factors which are driving the global market could be considered as abundant & low-cost feedstock, technological innovations, consumer' acceptance for eco-friendly products, government support, growing popularity, and boost for rural economy.

[Global renewable chemicals market](#) has seen a prospective growth in the past few years.

Major Key Players

- Archer-Daniels-Midland Company
- Amyris Inc
- BASF

The Major Key Players are Archer-Daniels-Midland Company, Amyris Inc, BASF, Bioamber, Biomethanol Chemie Nederland, Braskem, Cargill, DSM, E. I. DU PONT, Evonik industries ”

Market Research Future

- Bioamber
- Biomethanol Chemie Nederland
- Braskem
- Cargill
- DSM
- E. I. DU PONT
- Evonik industries

Key Findings

- Bioethanol forms 95% of renewable chemicals market
- Polylactic acid (PLA) and polyhydroxyalkanoates (PHA) are the major biopolymers in the market
- Bio-based succinic acid and iso-butanol hold the highest growth potential
- The major factors accelerating the growth of renewable chemicals are the availability of low cost feedstock and the increasing awareness about eco-friendly products
- Performance and cost competitiveness with traditional fuels form the major restraining factors for the renewable chemicals

The market report for Renewable Chemicals of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 147 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Renewable Chemicals Market Research Report - Forecast to 2021](#)"

Study Objectives of Renewable Chemicals Market

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Renewable Chemicals Market
- To provide insights about factors affecting the market growth
- To Analyse the Global Renewable Chemicals Market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by types and applications
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Renewable Chemicals Market.

Market Segmentation

Segmentation by types

- Alcohols
- Organic Acids
- Ketones
- Platform Chemicals
- Polymers

Segmentation by application

- Industrial
- Transportation
- food packaging & beverage bottling

- bio-medical
- fertilizers
- agriculture
- textiles
- environment
- housing
- recreation
- health & hygiene

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
