

SPIN.a.4 - Innovative Board Game on Cricket - Kickstarter Campaign - A Massive Success

BANGALORE, KARNATAKA, INDIA,
January 12, 2017 /EINPresswire.com/ --
[SPIN.a.4 Kickstarter Campaign](#) was
launched on 4th Jan 2017 and has
already raised over 100% across within
the first 48 hours.....

SPIN.a.4 is based on the Game of
Cricket, the 2nd most popular game in
the world, followed by more than 2 billion
fans across the world

SPIN.a.4, the board game is built on a
probability engine using data from 1000's
of actual cricket matches over the last
four decades. The inventor of the game
has spent over 2 decades in building the
statistical model and played over 3,500
matches to statistically prove the
accuracy of the game.

The board game replicates a cricket
game using a series of disks to simulate
every facet of the game. The disks are
the heart of the game. From accounting
for current forms of players to the final
outcome of the match, the discs control
the various permutations and
combinations possible in the match.

The project has received an
overwhelming response across the globe reflected in the success of the Kickstarter Project.
The Kickstarter campaign offers unique rewards to SPIN.a.4 backers i.e. T-Shirts, Special Editions of
the Game, Opportunity to Interact with the inventor, IPL Tickets etc.

This is a golden opportunity to own this unique board game before it is released in the market. The
game connects generations that will be stimulating for any cricket fan or a Board Game Enthusiast.

Come on SPIN.a.4 – Visit the Kickstarter Page

The image shows the SPIN.a.4 board game box and a logo. The logo features a stylized cricket ball and bat with the text 'KEN INTERACTIVE presents' and 'A game of cricketing strategy & fun'. The box art shows a cricket field with a large ball in the center and players around it. The text 'SPIN.a.4' is prominently displayed on the box.

SPIN.a.4“Board Game of Cricket Strategy”

- A Board Game encompassing strategy and fun around the game of cricket.
- Researched and developed over 2 decades
- Statistically Validated Game tested across 3500 matches over 2 decades

The infographic shows a stylized cricket player figure composed of five colorful puzzle pieces: green (head), blue (torso), red (waist), yellow (legs), and pink (base). Each piece is associated with a specific feature of the game.

FEATURE	DESCRIPTION
GAME MECHANICS	The game has been built on top of a probability engine using enormous amount of back end data around player forms and scoring pattern
REFINEMENT	Over the years the game has been refined, starting from the test matches to the One day games and now finally on to the 20-20 version of the game.
STRATEGY & FUN	This is the most unique board game ever seen in the market which combines your fun with your cricket strategy skills
BACKEND DATA	The back end data for the game has been based on the actual score of over 1000's of first class cricket matches played over last 40 years
TESTING	The model has been tested by playing over 3,500 matches on the board game over the last two decades
EMPERICAL	Each match played on the board game has proved the probability model to be correct, establishing enhanced credibility to the board game
