The analysts forecast the global pest control services Market to grow at a CAGR of 5.42% during the period 2017-2021.

PUNE, INDIA, January 13, 2017 /EINPresswire.com/ -- [Global Pest Control Services Market](#)

The pest control services industry includes firms that are involved in the professional management of pests, termites, rodents, and other species that can cause health issues or undesired quality of life for humans. The industry caters to both residential customers and commercial establishments. The primary function of pest control services is to maintain hygienic surroundings that are free of pests that could hurt commercial interests or endanger health. The need for pest control services grew tremendously over the decade because of increased awareness and the outbreak of many communicable diseases such as bird flu, swine flu, and severe acute respiratory syndrome (SARS) between 2001 and 2014. The policies that followed also mandated strong monitoring, regulation, and management of pests and other insects that could affect human health and the economy.

Covered in this report

The report covers the present scenario and the growth prospects of the global pest control services market for 2017-2021. To calculate the market size, the report considers the revenue generated by pest control service providers.
