

# Direct Drive Wind Turbine Global Market Share, Size, Trends and Growth 2017-2021

Wiseguyreports.Com Publish New Market Research Report On-“Direct Drive Wind Turbine Global Market Share, Size, Trends and Growth 2017-2021”.

PUNE, INDIA, January 13, 2017

The analysts forecast the global [direct drive wind turbine](#) market to grow at a CAGR of 11.52% during the period 2017-2021.

The wind is one of the cleanest sources of power generation. Wind turbines are used to harness the energy from the wind. The harnessed power from the wind is used to generate electricity. The wind power is directed to rotate turbine blades that are fixed to a rotor; the rotor is connected to the main shaft that spins a generator to create electricity.

Covered in this report

The report covers the present scenario and the growth prospects of the global direct drive wind turbine market for 2017-2021. To calculate the market size, the report presents a detailed picture of the market through study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Direct Drive Wind Turbine Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- ENERCON

- GE Renewable Energy
- Goldwind Science and Technology
- Siemens
- VENSYS Energy

Complete Report Details @ <https://www.wiseguyreports.com/reports/872286-global-direct-drive-wind-turbine-market-2017-2021>

#### Other prominent vendors

- ABB
- Anhui Hummer Dynamo
- AVANTIS Energy
- Bora Energy
- Foshan Ouyad Electronic
- Leitner AG
- Mervento
- Qingdao Hengfeng Wind Power Generator
- Qingdao Richuan Precision Machinery
- ReGen Powertech
- XEMC Windpower

#### Market driver

- Increasing R&D in direct drive generators for wind turbines.
- For a full, detailed list, view our report

#### Market challenge

- Development of airborne wind turbines.
- For a full, detailed list, view our report

#### Market trend

- Technology improvement in medium-scale direct drives.
- For a full, detailed list, view our report

#### Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

#### Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights
- Technological overview
- Cost breakdown of wind turbine components
- Wind turbine components
- Wind turbine technology value chain

#### PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

#### PART 06: Market segmentation by application

- Global direct drive wind turbine market by application
- Onshore application
- Offshore application

#### PART 07: Geographical segmentation

- Global direct drive wind turbine market by geography
- Direct drive wind turbine market in APAC
- Direct drive wind turbine market in EMEA
- Direct drive wind turbine market in Americas

#### PART 08: Market drivers

- Increasing R&D in direct drive generators for wind turbines
- High failure rate of wind turbine components
- Decline in LCOE of wind power generation

#### PART 09: Impact of drivers

#### PART 10: Market challenges

- Digitization in gearboxes
- Development of airborne wind turbines
- Competition from fossil fuels

#### PART 11: Impact of drivers and challenges

#### PART 12: Market trends
