

Patient Monitoring and Assistance Robots 2017 Global Market Expected to Grow at CAGR 30.27% and Forecast to 2021

PUNE, INDIA, January 13, 2017
/EINPresswire.com/ --

WiseGuyReports.Com Publish a New Market Research Report On – “Patient Monitoring and Assistance Robots 2017 Global Market Expected to Grow at CAGR 30.27% and Forecast to 2021”.

The analysts forecast the [global patient monitoring and assistance robots market](#) to grow at a CAGR of 30.27% during the period 2017-2021.

Evolution in technology and increased R&D for technological innovations by vendors in the healthcare robotics sector have paved the way to introduce patient monitoring and assistance robots. There are two major dynamics that have impacted the healthcare robotics and the adoption over the years. One is the aging population across the globe, which will not only increase the number of patients but also lead to the retirement of the current care staff and nursing professional in hospitals and other healthcare facilities like nursing homes. The other factor is the globalization of healthcare. Healthcare professionals are increasingly using technologies like telepresence robots to consult physicians and specialists in other countries to deliver efficient and speedy healthcare services. This implies that the market for patient monitoring and assistance robots will see a surge during the forecast period.

Covered in this report

The report covers the present scenario and the growth prospects of the global patient monitoring and assistance robots market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of patient monitoring and assistance robots.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Patient Monitoring and Assistance Robots Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Aethon
- Anybots
- Cyberdyne
- KUKA Group
- ReWalk Robotics

Other prominent vendors

- Awabot
- Hstar Technologies
- Kinova Robotics
- Lamson Group
- Panasonic
- Revolve Robotics
- Toyota Motor
- Vecna Technologies

Market driver

- Shortage of workforce in healthcare sector
- For a full, detailed list, view our report

Market challenge

- Business and regulatory challenges
- For a full, detailed list, view our report

Complete Report Details @ <https://www.wiseguyreports.com/reports/872223-global-patient-monitoring-and-assistance-robots-market-2017-2021>

Market trend

- Emergence of sophisticated handicap assistance robots
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

- Market overview

- Top-vendor offerings
- Other prominent vendors

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by product

- Market overview
- Global handicap assistance robots market
- Global autonomous mobile transport robots market
- Global daily care robots market
- Global telepresence robots market

PART 07: Geographical segmentation

- Global patient monitoring and assistance robots market by geography
- Patient monitoring and assistance robots market in Americas
- Patient monitoring and assistance robots market in EMEA
- Patient monitoring and assistance robots market in APAC

PART 08: Market drivers

- Shortage of workforce in healthcare sector
- Support from governments of developed countries
- Increase in number of people with disabilities
- Miniaturization of sensors

PART 09: Impact of drivers

PART 10: Market challenges

- High cost and low acceptance
- Business and regulatory challenges
- Limitations of healthcare robots
