

Dental Software Market 2017 Global Industry Key Players, Share, Trend, Applications, Segmentation and Forecast to 2027

global dental software market was valued at \$1.6 billion in 2015, and expected to reach at \$4.1 billion by 2027 growing at a CAGR of 8.0% during the forecast

PUNE, INDIA, January 16, 2017 /EINPresswire.com/ -- [Dental Software](#):

Summary

The global dental software market was valued at \$1.6 billion in 2015, and expected to reach at \$4.1 billion by 2027 growing at a CAGR of 8.0% during the forecast period. Major factors driving market growth include technological advancements in dental equipment, and rising adoption of digital dental radiography systems. However, low awareness about dental software especially in developing nations, and high cost of treatment are hindering the growth of global dental software market.

The market has been categorized on the basis of types, applications, modes of deployment, end-users, and regions. Globally, North America held the largest market share of 48.6% within the dental software market in 2015. The scope of global dental software market study includes the market value, market size and a detailed analysis of vendor products and strategies.
