

# IT Governance launches new secure and redesigned website

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, January 16, 2017 /EINPresswire.com/ -- IT Governance, the leading provider of [ISO 27001](#) and information security solutions, is pleased to announce the launch of its newly redesigned website [www.itgovernance.co.uk](http://www.itgovernance.co.uk). The new website has been upgraded to provide clients and visitors with an improved and optimised platform to enhance experience.

The new optimised website provides a “user-friendly” experience across all digital devices, including desktop, tablet and phone.

A major improvement to our website's security is that it now uses HTTPS across the whole site, which helps ensure our client's data is fully encrypted in transit and secure from any cyber threats.

The website has also been revised to give clients and visitors an easier way to navigate the website and find information, resources, products and services. Visitors can easily find support for compliance projects relating to standards and Regulations such as [GDPR](#), ISO 27001, ISO 9001, the [PCI DSS](#) and many more. The site also offers faster searches for product and information pages to enhance the visitor's overall journey.

The training course webpages have also been redesigned to provide clients with a clear overview of training course dates and locations.

The new design provides a single-page checkout that allows customers to purchase products and services through a secure checkout quickly and efficiently. The customer account area provides improved access to account details and digital product downloads.

To find out more about IT Governance's products and services, please visit our website, email [servicecentre@itgovernance.co.uk](mailto:servicecentre@itgovernance.co.uk) or call +44 (0)845 070 1750.
