

Global Dental CAD-CAM Market is expected to reach USD of 3.33 Billion by 2027 with Stable CAGR of 8.1%

Dental CAD/CAM Market is growing rapidly after 2016 with the CAGR Of 8.1% since the market is boosted due to high adoption of CAD/CAM systems in the dentistry

PUNE, MAHARASHTRA, INDIA, January 16, 2017 /EINPresswire.com/ -- Dental CAD/CAM Market is growing rapidly after 2016 with the CAGR Of 8.1% since the market is boosted due to the high adoption of the CAD/CAM systems in the dentistry. The global market for Dental CAD/CAM is growing rapidly and expected to reach USD of 3.33 Billion by the end of 2027.

Market Highlights

The global dental CAD/CAM market has been evaluated as rapidly growing market and expected that the market will reach high growth figures. There has been a tremendous growth in the adoption rate of the CAD/CAM systems in the field of dental science. Due to the benefits offered by the dental CAD/CAM systems such as high precision, enhanced speed of the process of restorations, there has been huge demand for dental CAD/CAM in the dental laboratories as well as dental clinics and it has a high importance in the market. People are now more aware about the aesthetic value of the teeth, and are willing to spend a good sum of money for the dental replacements and fixtures using implants and prosthetics. Due to this, there has been growth in the dental cosmetic surgeries ultimately helping in boosting the revenues in the [Dental CAD-CAM Market](#). The cosmetic dentistry market value is estimated to surpass \$20 billion mark by the year 2022.

There are dental service organizations which enable dentists to invest in the new technologies and help dentists incorporate these technologies into practice. The growth in the DSOs has been crucial in driving the dental CAD/CAM market. Dentists are now using variety of dental materials for the restorations. The materials are used according to the type of restoration, cost of the material, patient budget and durability of the material. The variety in the material and its affordability has led people to undergo restoration procedures.

On the other hand, the initial investment in the dental CAD/CAM systems are around USD 60,000+. These complicated systems need regular maintenance in order to work efficiently where the maintenance cost is also way too high. Burden of this high costs compels small scale dentists to make crunching calculations on potential return of investments. Small capital and high cost raises the affordability issues for the dentists. This factor can hamper the growth of the dental CAD/CAM market.

Dental CAD/CAM Market Players:

- Align Technology, Inc.
- Axsys Incorporated
- B&D Dental Technologies
- DATRON AG
- Dentsply Sirona
- KaVo Dental GmbH
- Nobel Biocare (Part of Danaher Corporation)
- PLANMECA OY
- Roland DGA Corporation
- Straumann
- Yenadent Ltd
- 3Shape A/S

Intended Audience

- Dental CAD/CAM Service Providers
- Dental CAD/CAM Equipment Manufacturers And Suppliers
- Contract Research Organizations (CROs)
- Research And Development (R&D) Companies
- Government Research Laboratories
- Independent Research Laboratories
- Government And Independent Regulatory Authorities
- Market Research And Consulting Service Providers
- Academic Institutes And Universities

Key Finding

- o The dental CAD/CAM global market and is expected to reach \$3.33 billion by 2027.
- o Equipment holds the largest share of 89% of the market.
- o Europe has the largest share in the growth of dental market considering 8.3% of dental CAD/CAM market and is expected to reach USD 1.45 billion by the end of 2027
- o Globally, Asia-Pacific the fastest growing region during the forecast period.

Segmentation:

Dental CAD/CAM market has been segmented on the basis of types of product which comprises of

in-lab system and in-office system. On the basis of products, market is segmented into equipment which is sub-segmented in to milling machines and scanners, and software. On the basis of application, market is segmented into crowns, dentures, bridges, veneers and inlays/onlays. On the basis of end user, market is segmented into dental laboratory, dental clinic, and research/academic institutes.
