India's Express market has seen a growth of around 17% during 2010-14. The market of Express delivery has been on an increasing trend since 2012 as India started participating in the e-tailing business and with increased market penetration of automobiles. Compared to the overall logistics industry which is limping at a moderate CAGR of 3 percent, Express Industry is nimble in terms of growth in market size along with concomitant improvement in policies and infrastructure. The industry can be classified broadly based on the mode of transport it uses, surface having predominance. Auto, engineering and hi tech industries have been the market drivers so far. However, it is expected that the blooming e-commerce market and relating 3PL and hyperlocal space will prompt the Express market in coming years.

According to the report “India [Express Logistics](#) Market Outlook, 2021”, India’s Express Industry has reached a market size of INR 20346 crore by 2015. Surface Express is expected to have the largest share in the Express market. Delhi, Maharashtra and Bangalore are having maximum share in India. The report reveals that Gati, Safexpress, Blue Dart, TCI XPS and SpotOn are the leading players in Indian Express market and their revenue share is expected to grow over the forecasted period, owing to their expanding distribution network.
