## Summary

This report provides an important expert quantitative analysis on the [contract dose](#) manufacturing industry.

PharmSource is the most definitive, trustworthy source of strategic insight on this topic in the bio/pharmaceutical realm.

Founded on the industry's most comprehensive database of the dose CMO industry (PharmSource's Strategic Advantage Database of Contract Service Providers) this analysis is driven by our proprietary model of the dose manufacturing industry, which is continuously updated and refined. The model and assumptions are fully explained so readers can understand how the analysis and conclusions have been established.

This 25-page report includes an Executive Summary, and chapters on Industry Structure and Size, Industry Size and Growth, CMO Market Shares and concludes with a chapter on The Outlook for the Dose CMO Industry, which provides further analysis and assesses the report's implications for the dose CMO industry. In addition, it includes an appendix on methodology.

## Scope

- This report characterizes the contract dose manufacturing industry along a number of quantitative dimensions, including number and type of participants, market size and market shares of the top CMOs, and provides PharmSource's expert outlook for the industry.
- The contract dose manufacturing universe, for purposes of this report, includes companies that actively promote themselves as contract manufacturers (CMOs) that produce a client's formulations for pharmaceuticals supplied to the highly regulated markets in North America, Europe and Japan.
- This year PharmSource includes an even broader scope of contract manufacturers, with a new sweep of European participants to provide increased granularity about these companies.
- The report defines the contract dose manufacturing universe as including 280 companies headquartered primarily in North America, Europe, Japan and India.
