

Automotive Bearing Market is Expected to Grow at a Healthy Compound Annual Growth Rate of 6% during 2016 to 2022

Global Automotive Bearing Market Information by Type (Ball Bearings, Roller Bearings), Vehicle Type (2-Wheeler, Passenger), and Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, January 17, 2017 /EINPresswire.com/ -- Market Highlights

“ We enable our customers to unravel the complexity.”

Market Research Future

Market Research Future published a Half-Cooked Research Report on Automotive Bearing Market that contains information from 2016 to 2022. The [Global Automotive Bearing Market](#) is expected to grow at a CAGR of about 6% during the forecast period, 2016 to 2022.

Key Players in market are Schaeffler AG., Jtekt Corporation, NTN Corporation, Ijjin Bearing Co., Ltd., Timken Company, Svenska Kullagerfabriken AB, RKB Bearings, Timken Company, and ORS Bearings”

Market Research Future

Automotive bearing system is used to enable the rotational and linear motion and also reduces the friction in the vehicles. The specialty of the bearing differs as per the vehicle it is used in such as, heavy vehicles demands bearings to be rigid enough to carry heavy weight and give trouble free and smooth operations. As per trend, ceramic and white metal alloy ball bearings are expected to capture the market for automotive bearing as these are lightweight and will enhance the product quality by reducing the friction and energy consumption during the operations. Moreover, increasing demand for the vehicles and technological advancement are driving the automotive bearing market. The global automotive bearing market is expected to show a growth at CAGR of about 6% from 2016

to 2022.

Key Players

The key players of global Automotive Bearing market report include

- Schaeffler AG.
- Jtekt Corporation
- NTN Corporation
- Ijjin Bearing Co., Ltd.
- Timken Company
- Svenska Kullagerfabriken AB
- RKB Bearings
- Timken Company
- ORS Bearings

•CW Bearing

Taste the market data and market information presented through more than 85 market data tables and figures spread in more than hundred pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Automotive Bearing Market Research Report- Forecast to 2022](#)"

Asia-Pacific Region to Dominate the Automotive Bearing Market

Asia-Pacific is the major regions for the automotive bearing market. Asia-Pacific is expected to show significant growth in automotive bearing market. Emerging economies like China, India, are expected to drive the market due to increasing demand for vehicles, increasing individual's disposable income & purchasing power is expected to drive the market for automotive bearing. Developed regions such as North America and Europe will show the static growth for the automotive bearing market.

Scope of the Report

This study provides an overview of the global automotive Bearing industry, tracking market segments across the categorized four geographic regions. The report provides a five-year forecast for the market size in terms of value for North America, Europe, Asia-Pacific, and Rest of the world. The scope of the study segments the global automotive bearing market based on type, and vehicle type.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
