

Smart Home M2M in US 2017 Market Expected to Grow at CAGR 35.23% and Forecast to 2021

WiseGuyReports.Com Publish a New Market Research Report On – “Smart Home M2M in US 2017 Market Expected to Grow at CAGR 35.23% and Forecast to 2021”.

PUNE, INDIA, January 17, 2017
/EINPresswire.com/ --

The analysts forecast the [smart home M2M market in the US](#) to grow at a CAGR of 35.23% during the period 2016-2020.

A smart home comprises an internal network, home automation, and intelligent control. It is equipped with advanced and automated digital devices, home appliances, and equipment that are interconnected to each other, facilitating sophisticated monitoring and control over the building's functions. It performs three actions: remote status checks, remote information, and remote control to implement any action from a remote location.

A smart home enables lighting and temperature control, security, door operations, and other functions. It provides a wide variety of applications such as home automation, home security, home cloud, energy management, and e-health services. It improves
