ACC News Talk Radio Spotlights Anastasia Gorianina of Elephanta Coaching

Houston, TX – In the incredibly competitive world of business, you have to be on top of your game at all times. One slip and someone else will be right there waiting to pick up on your misstep. Whether you're well-established or just starting out, it's essential to maintain focus, drive and determination... and never forget that with every goal you have, countless others may have that same objective and could be just as hungry and determined as you are.

With a wealth of educational and professional experience: Executive, Business and Life Coach Anastasia Gorianina has worked with many individuals and business professionals to get them back on track, focused and ready to achieve their ultimate goals. Raised in St. Petersburg, Russia, Anastasia spent years as a trainer and consultant at the Women's Academy where she created and implemented countless development programs specifically for women. After relocating to Houston, Texas, she earned Professional Coach Certification from Erickson Coaching International. Accompanied by her Master's Degree in Political Science and International Relations from Baltic State University, Anastasia incorporated all of her fascinating experience and founded Elephanta Coaching.

At [www.elephantacoaching.com](http://www.elephantacoaching.com), men and women from all backgrounds can view all of Anastasia's amazing services and programs that she provides. Her result-driven and client-centered approach has given many individuals and organizations the "tune-up" they've needed to get ahead and stay

ahead in life and in business. Elephanta Coaching has become a global success, as Anastasia often travels directly to many of her clients in order to see firsthand the operation, which gives her a better understanding and helps her to formulate effective strategies for success. Conducting sessions in person, Skype or telephone: Anastasia identifies the issues at hand and crafts the program to best fit the client's needs and objectives. So confident in the results you'll see in working with her, Anastasia offers a complimentary session to shed light on what you may be missing and prepare you for a journey in personal development.

"I am passionate about bringing out the best in people and facilitating solution-focused thinking towards creating the desired results. I am fascinated by how much more efficiently the human mind can work when the coaching approach is applied.

I believe everyone has the potential to become greater in who they are and what they can achieve in life," exclaims Gorianina.
