

Global Polyolefin Market will reach to USD 300 Billion with 7% CAGR during 2016-2022

Polyolefin Market by Type (Polypropylene, Polyethylene and, Polymethylpentene) by Application (Films & Sheet, Blow Molding) and by Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, January 18, 2017 /EINPresswire.com/ -- Market research future published a half cooked research report on [Global Polyolefin Market](#). The global market for global polyolefin market is expected to grow over the CAGR of around 7% during the period 2016 to 2022.

Market Highlights

The Global Polyolefin Market is expected to cross USD 300 Billion mark at the end of the forecasted period and is expected to show a staggering growth at CAGR of approximately 7% from 2016 to 2022. The Global Polyolefin Market is driven by the increasing demand for eco-friendly packaging and ease of availability of raw materials in emerging nations. The increasing awareness among the consumers on recyclable products, increasing greenhouse emissions and eco-friendly packaging in the day to day consumer goods has led to the growth of the market globally.

Major key Players include BASF SE, The Dow Chemical Co., E.I., Formosa Plastics Corporation, Sinopec Corporation, ExxonMobil Corporation"

Today the consumption has gone for finished plastics in all applications such as packaging, industrial and automotive. The production of polyolefin was valued above 135 million tons in 2015 and is expected to trend similarly and cross 180 million toes by the end of 2022.

Target Audience

- Manufactures
- Raw material Suppliers
- Aftermarket suppliers
- Research Institute / Education Institute
- Potential Investors
- Key executive (CEO and COO) and strategy growth manager

“APAC will be the fastest growing market”

APAC is expected to dominate the market for global Polyolefin. More than 46% share in the market comes from APAC region. The region has seen rapid industrialization with increasing number of manufacturing plants being set up by global players. This is backed by high disposable income of the average consumer which induces the demand for these polymers. The demand is expected to grow in coming years resulting in an expanding share of APAC in global polyolefin market by 2022.
